Whatever your task at hand – whether it's launching that boat before daybreak, setting up your camper before the rush or getting a final load to the dump before close – CURT class 3 trailer hitches offer the strength needed for serious towing. They make it easy to hitch up and Bring It, offering a vehicle-specific fit and the weight capacity to handle a variety of trailers. Custom class 3 hitches are the most common type of receiver hitch for pickup trucks and SUVs. Because of their weight range, they are also found on full-size cars, crossovers and minivans. Each custom-fit class 3 hitch package is made for vehicle-specific mounting. This particular kit fits certain years of the Toyota Highlander and Lexus RX see application info to verify vehicle compatibility. It provides a weight carrying capacity of 3, lbs. GTW and lbs. Each class 3 hitch has a 2" receiver tube and is tested in accordance with SAE J for safety. To ensure that CURT class 3 receiver hitches have what it takes for serious trailering, they are designed using a hands-on approach and are constructed with rugged, high-strength steel and precise welding. We also protect our class 3 hitches in a co-cured finish of liquid A-coat and black powder coat for superior resistance to rust, chipping and UV damage. CURT offers custom trailer hitches, electrical products and a complete line of towing accessories to get you there with confidence and enjoy every mile of the journey. At CURT, we think every hitch should offer a vehicle-specific design, meaning seamless integration and a reliable connection for your next adventure. To truly let you Bring It, our custom receiver hitches are made in the USA and have a co-cured finish of liquid Bonderite, inside and out, and durable powder coat. Our hitches come in five classes, offering a range of weight capacities and receiver tube sizes. We use actual vehicles and cutting-edge software to develop hitch designs that are strong, functional and tailor-made to fit your unique make and model. A combination of robotic welding and skilled manual welding ensures production efficiency, optimal strength, clean weld lines and a precise fit for each hitch. For maximum protection, our hitches are mechanically descaled and co-cured in a liquid Bonderite undercoating, inside and out, and durable black powder coat finish. Our custom-fit trailer hitches are not only made in America, but every design is rigorously tested for safety and performance at our Detroit testing facility according to SAE J specifications. Camping trips with family and friends build memories that last a lifetime. CURT offers the equipment needed to tow everything from teardrop trailers and popup campers to full-length travel trailers. Add even more adventure by utilizing the receiver tube of your hitch for a CURT hitch-mounted bike rack or cargo carrier. Do you find the bubbling sound of a boat motor therapeutic? Do you love lounging on the water with a fishing rod in one hand and a cold drink in the other? No matter where your next aquatic adventure lies, we offer the weight capacity to tow everything from a simple fishing boat to a small yacht. And with our co-cured finish applied to each custom hitch, moisture and rust will be the least of your worries. Is speed the adrenaline rush you need to get through your week? Do you live on the edge and constantly push yourself to new limits? For added safety and security on the road, we also offer a variety of cargo straps to keep your toys locked down tight. Tough jobs require serious tools. From the farm to the construction site to the industrial park, CURT class 5 hitches are designed and tested to keep up with the hardworking lifestyle. Was easier than expected to install by 52 year old woman myself using a plastic box to hold up one side. Slots in Receiver give a bit of play in location placement. Receiver does not extend beyond bumper- yay! As with the other comments, the cardboard shipping box was pretty beat up tough to ship this type of item well in something other than wooden box, but that would add weight, and cost to product. Reasonable price, especially with free shipping. Chappell on April 20, Images in this review. This seems like it is well made. I had to drill out an extra 3mm on each of the 3 holes on one side of the hitch. According to Amazon this was supposed to fit my Toyota Highlander. It took me a couple of hours after trying to get it on, taking it off, then drilling out the holes so the bolts would fit. It seems great but it did not fit my vehicle without modification and that kinda sucked. Just install mine and let me tell you this thing is heavy duty. Even the paint job feels great. The bolt at the end on each side opposite from the 2 other bolts, was the hardest one to screw in. I also bought the combo 2in tow ball and trailer wire connector. The install was too easy. Well money spent. One person found this helpful. Direct bolt on installation on our Highlander. Pretty easy to install if you have the tools. Needed it for a bike rack. No drilling. Very solid welded steel build quality but product comes on a UPS truck with NO packaging, so don't expect the paint finish to be in very good condition. It does what it was intended to do and a little black spray paint will solve the paint issues. I was amazed how easy it was. I have an 02 Highlander and used a jackstand to prop up the other side. If you have nothing to prop up the other side then I can see how it is a two person job. I installed the muffler side first due to needing the maneuver room. Definitely recommend. Fits perfectly. It might be a bit heavy for one person to handle but I pretty easily did it myself, supporting the driver side on a box while attaching the passenger side. Wiggling it around the exhaust did not seem exceptionally difficult to me. I think it would have been difficult if not impossible if I had attempted to attach the driver side first. I purchased the CURT hitch for a Lexus RX, and the manufacturing tolerances were such that the bolt holes would not line up with the frame of the car. In order to make it fit, I had to take it to the machine shop at my office and slot three of the holes. I was able to make it work because I had access to the proper tools, but without a milling machine, it would not be possible to make it fit. This error must be on CURT's end, as I find it impossible to believe that Lexus would manufacture a car with such sloppy tolerances. I have purchased two CURT hitches and I like their heavy duty construction and the fact that they're Made in USA, but their quality control seems poor and they need to put more effort into getting the details right. Product came and box was destroyed and left on my doorstep. The holes are 2 inches off bc of this defect. Update: contact Amazon and will be 2 weeks before they can get me another one. Contacted Curt and they refuse to help at all. See all reviews. Top reviews from other countries. Outrageous price too. Report abuse. I read reviews that some people had to drill holes because they didn't line up. Pry the hitch into place to line up the holes that are off. Tighten it down. Perfect fit Thanks Curt. in, give it a second life. This listing is for part or sub-assembly number given below only. It is also popular on crossovers and mid-size trucks. That is because the class 3 packs the punch of a heavyweight hitch while still staying light on its feet. CURT class 3 hitches range in gross trailer weight capacity from 3, lbs. These hitches are engineered to be strong and capable, having a quality steel frame in round tube or square tube form. Rated to 3, lbs. No drilling required 2. Engineered with a vehicle-specific design for a custom fit 3, Tested for safety in accordance with SAE J Precisely welded for superior strength and fit 4, Protected by a durable high-gloss black powder coat finish. Co-cured in a rust-resistant liquid Bonderite coating, inside and out 5. Equipped with an open-back receiver for easy cleaning. Limited lifetime warranty one-year finish, one-year parts 6. Installation Guide Details May Vary. Installation Time Minutes : Most orders ship within hours of payment. Tracking will be provided with every order and posted to your account. Import duties, taxes, and charges are not included in shipping rates for most items we will note on each ad which parts have these fees included. Please contact your local customs office to inquire about duties, taxes, and charges before purchasing as these buyer's responsibility. USPS is great for small packages and mail but most of what we sell is either too heavy or too large for them to even accept it. If you do have a smaller item of ours and want to use USPS, please use service with package ID with proof of delivery. How much are the shipping fees? The shipping fees for all of our products are clearly stated on the checkout page. What shipping methods do you have available? In special cases, an item must be shipped LTL, if that is the case we will make sure you are properly notified and that you have all the information to receive the item without issue. Should I pay for shipping insurance? We highly recommend it! For you to receive a refund we must receive the part in "Like New" condition. If the part comes back to us damaged or any condition other than "Like New", then no refund will be given. Shipping insurance will cover you if part is damaged while on the way back to us. Do you ship international? Please contact us for international shipping information. We will accept any item back within 30 days of purchase as long as the following conditions are met:. These are constraints set by product manufacturers and we have to honor their policies on returns. Items returned in poor condition or having parts missing will not be credited. Unless our company or the listing is in error, the customer is responsible for paying return shipping costs. In the event of a fitment issue we will require a VIN for vehicle confirmation and the part number you have received to process your return. We give you the option to either return for a refund or simply return for an exchange, it is completely up to you. You must contact us and obtain an RMA Number prior to returning any products. The customer is responsible for providing shipping insurance that covers the full price of any item being returned. Be sure the outside of the box has the RMA clearly posted. If the product proves to be defective, it will be returned at no charge to the customer and exchanged for a new non-defective item at no additional cost. Be sure to include:. Skip to main content.
